

Love This Thing A Lot

Nic D

Yeah, uh huh, yeah (100)
Come on, look, yeah

I must love this thing a lot
I already made enough to stop
The mayor still tell me I'm that kid from up the block
But y'all still tell me when you see me you in shock
That's a lot

The money I'm making is a side quest
Had to fund the main quest
Had to make enough so I could live without a paycheck
Independent legend, boy I left it at the apex
Weather increment, I had to leave 'em with a rain check
Show you everything like grey sweats

I work this hard so I could take rests
All on me, that's how I place bets, that's a safe bet
Pawned off my future for a queen, that's how I play chess
Said it felt right, only did it 'cause it felt right
Tryin' get myself right, that should help right?
Got a trophy wife without the shelf life, she can melt ice (yeah)

I must love this thing a lot
I already made enough to stop
The mayor still tell me I'm that kid from up the block
But y'all still tell me when you see me you in shock

A unicorn in it's truest form
Hold on my sleeve like a uniform
Do what I love and then I do it more, look who I do it for
I copt the crib on twenty-seven acres, ran out of room to grow
Welcome to my newest show, cue the hoes

Use to get antsy when things where moving slow
Now I want them to slow down
Mixed my etiquette with what I know now
Found out I'm a pro man that's profound
In and out of places hard to pronounce

I said the scale tippin'
Do I feel different? Yeah I feel different
Mixing things up, man I'm a real chemist
The only good you ever getting is a good riddance
I said it feel different, but do it look different?

Do you get the real vision?
It's in plain sight, have a safe flight
Missing out on life ain't worth another 100k a night
It's ok to have ambitions man, just make sure that they aimed right
Yeah

I must love this thing a lot
I already made enough to stop
The mayor still tell me I'm that kid from up the block
But y'all still tell me when you see me you in shock
That's a lot

I must love this thing a lot
I already made enough to stop
The mayor still tell me I'm that kid from up the block
But y'all still tell me when you see me you in shock
That's a lot
