

Money

Nic D

(All I want is money, money, all I want is money, money)
(All I want is money, money, money, money give me some)
(All I want is money, money, all I want is money, money)
(All I want is money, money) Give me that money

I got bills
Too much spent on cheap thrills
Three seconds away from no chill
Before I go, I need a mil
(Five, we'll go with five)

Five hundred bodies in the room, can't relate (Hey)
Keep you on your toes this ballet, what I say
Feel like I'm Boban, I'm a seven-footer
I'm a kettle cooker like I'm Devin Booker
I'm a head spinner, head turner cause they
(Definitely looking)

Hate to see what that shot look like if I never took it
How much sauce, lot of sauce
That's how I'm cookin, no sugar coatin
No wobble legs, this solid footin
I'm talking, get away
I'm talking, all expenses paid
I'm talking, I'm talkin like gettin lemons, I made
You get it

(All I want is money, money, all I want is money, money)
(All I want is money, money, money, money give me some)
(All I want is money, money, all I want is money, money)
(All I want is money, money) Give me that money

I got bills
Too much spent on cheap thrills
Three seconds away from no chill
Before I go, I need a mil
(Five, we'll go with five)

High five, was the password to the wifi
You know the drill, feel like I'm walkin on stilts
Look at all that we built, when I find balance, it tilts
Oh, babe, you hot as hell but still give me chills
I took you to our favorite spot, that place we go a lot
Feel like the only ones that even know it exist
Oh, I gave you the aux, and you played icee pop
I'm Mr. Know It All, but even I ain't know this
Let me get this straight

I got bills
Too much spent on cheap thrills
Three seconds away from no chill
Before I go, I need a mil (Five)
