

Moon & Back

Nic D

There's no gravity here, I love you to the moon and back
I've been floating nowhere fast
Been gone so long I'm losing track
And now I'm falling stupid fast

Woah!

Mayday over the radio
All that waiting and moving slow
Now we zooming and moving fast
I love you to the moon and back

That's on my mama
We get close it feel like Nirvana
We walk slow and the floor is lava
We just go, we do what we wanna
Yeah, that's on my mama
She got a way with the words and I love it
She got a way to look good in pajamas
She never gotta wear anything cause she wanna

There's no gravity here, I love you to the moon and back
I've been floating nowhere fast
Been gone so long I'm losing track
And now I'm falling stupid fast

Woah!

Mayday over the radio
All that waiting and moving slow
Now we zooming and moving fast
I love you to the moon and back

It's a big world
You got big bright eyes
I got big dreams, can't you see?
And now she loving all my quirks
She needed nothing except somebody to put a verse
To get her faraway from everything that she learned
The only way that's to the moon, babe, is in reverse
Don't forget your purse
Don't forget your purse

Woah!

Mayday over the radio
All that waiting and moving slow
Now we zooming and moving fast
I love you to the moon and back
