Offline, babe, you're all mine
I'm sure, somethin' like the coast line
Where ya at?
I'll be there in no time
I'll be there in no time, yeah

It was love at first sight, tryna get the words right
Where ya at? Caught the first flight
Got delayed, missed the train, try to text you in the rain
It just feel like a movie, but I don't remember my lines
So, I wing it, no wingman, you got an Instagram or a LinkedIn?
I'd follow you anywhere
Even through the troubles of gettin' there, I'm in and out of y
our head
Yeah, can't wait to see ya

Offline, babe, you're all mine
I'm sure, somethin' like the coast line
Where ya at?
I'll be there in no time
I'll be there in no time, yeah

See, I shot at you like Pistol Pete, I never miss
So, if I'm set the cruise control to 45, I guess I'm pistol-
whippin'
No squares in my circle, I ain't shape-shiftin'
I feel like Clark Kent, but my cape missin'
I found out that I don't know nobody like you
Kinda love it when you slide through
I wanna be someone you lie with
Not somebody that you lie to

Offline, babe, you're all mine
I'm sure, somethin' like the coast line
Where ya at?
I'll be there in no time
I'll be there in no time, yeah

Offline, babe, you're all mine
I'm sure, somethin' like the coast line
Where ya at?
I'll be there in no time
I'll be there in no time, yeah
