

Prayed For You

Nic D

Hey, hey
Hey, hey (One hunnid)
Hey, hey

Your body language speaks to me
We communicate so easily
Must've been somethin' 'bout our frequency
How we movin' in a weave seamlessly
Then fall asleep so peacefully
It seems that it's meant to be, yeah

I told my therapist about ya
She said I fall in love too quick
I told my parents about ya
They said, "Honey, I hope she's it"
I threw a prayer up about ya
That was before we even met
I threw a sail to run away
And on a bed, I'm unaware
And did you pray for me like I prayed for you?
'Cause thankfully, I made it through
And I didn't run away
And I didn't run away, yeah

And if I take a photo
It's just to live that moment again
Long way from solo
Just to show you how happy I've been
Runnin' around
Jump and dance and spin in circles
'Cause I'm runnin' around
Runnin' around

I told my therapist about ya
She said I fall in love too quick
I told my parents about ya
They said, "Honey, I hope she's it"
I threw a prayer up about ya
That was before we even met
I threw a sail to run away
And on a bed, I'm unaware
And did you pray for me like I prayed for you?
'Cause thankfully, I made it through
And I didn't run away
And I didn't run away, yeah
