

Rock Bottom

Nic D

I tried to give you the world but you just want problems
You want the good times and baby I got them
Still rocking with you even when it's rock bottom
Yeah yeah

You treat my advice, like it's just a vice
We cut from the same cloth, cut me like a knife
Just wanted a slice, just wanted a bite
Cut me like a chainsaw, couldn't get the chains off

I gave you my dang heart, thought it would suffice
Guess I wasn't right
I gave you my bank card, thought I paid the price

I even sang my dang heart out and it did me nothing
Still mean nothing

I tried to give you the world but you just want problems
You want the good times and baby I got them
Still rocking with you even when it's rock bottom
You want the good times and baby I got them

Still rocking with you even when it's rock
Rock rock rock rock rock bottom
I tried to give you the world but you just want
Want want want want want problems
You want the good times and baby I
I I I I I got them
Still rocking with you even when it's rock
Rock rock rock rock rock bottom

You treat my advice, like it's just a vice
We cut from the same cloth, cut me like a knife
Just wanted a slice, just wanted a bite
Cut me like a chainsaw, couldn't get the chains off
