

Stop & Stare

Nic D

You look good if you're wondering
If you're free, let's have some fun
It's 3am in London
If we leave now we can beat the sun
Maybe I'm on to something
Maybe I'm not, maybe I'm on one
All things I wish I would have said

When I saw you there on the dance floor
Dippin' and spinnin' you were flippin' your hair
You were unaware how lookin' like that
Could easily be takin' my air
Cause it's easier to stop and stare
Than it is to make my move
Or just get out of there
Or just get out of there

And could I take your hand
And ask you to dance
And ask your plans
Find out who you are inside that heart
My momma told me shoot for stars
The perfect pair
Of that jukebox
My favorite jams
The way you move
Had all these plans
But I forgot

When I saw you there on the dance floor
Dippin' and spinnin' you were flippin' your hair
You were unaware how lookin' like that
Could easily be takin' my air
'Cause it's easier to stop and stare
Than it is to make my move
Or just get out of there
Or just get out of there

I can find the reasons
But I can't shake the feeling
That I get trouble breathing
When I think about leavin' without
At least askin' for your name
I found the courage to say
I grabbed your hand, couldn't wait
Just to say

I saw you there on the dance floor
Dippin' and spinnin' you were flippin' your hair
You were unaware how lookin' like that
Could easily be takin' my air
'Cause it's easier to stop and stare
Than it is to make my move
Or just get out of there
Or just get out of there

Saw you there on the dance floor

Dippin' and spinnin' you were flippin' your hair
You were unaware how lookin' like that
Could easily be takin' my air
'Cause it's easier to stop and stare
Than it is to make my move
Or just get out of there
Or just get out of there

It's easier to stop and stare
Than it is to make my move
Or just get out of there
Or just get out of there
