

# Summer's Ours

Nic D

Love me loud, don't you downplay  
Love me now, not another day  
Double down, it's coming up spades  
Summer's ours, who's my twin flame?

The summer is our our our our ours  
Makeshift fan in a broke down car  
Same ten friends at the same old bar  
Running up cards  
The summer is our our our our ours  
Told her this town's gonna break your heart  
I just wanna finish everything we start  
We've come too far

Girl we stick and we roll with the punches yeah  
Call me bubble, I got gumption yeah  
Gotta love her and I love her  
If I'm working in the bedroom it's undercover  
Alright alright alright alright  
Trouble keeping up, she can go all night  
Alright alright alright alright  
When I clock downtown oh we pack in tight  
I know, mmh yeah yeah  
These chains feel different  
Every single feeling that I got for your cemented  
Standing right in front of me so tell me where you headed  
Took it all apart because we had to reinvent it  
We ain't gotta explain ourselves  
No we don't owe nobody nothing except ourselves  
We ain't gotta explain ourselves  
But girl you know we got a story to tell

The summer is our our our our ours  
Makeshift fan in a broke down car  
Same ten friends at the same old bar  
Running up cards  
The summer is our our our our ours  
Told her this town's gonna break your heart  
I just wanna finish everything we start  
We've come too far

Yeah, ain't no Michelangelo but I could draw it out  
Put her on a canvas yeah 'cause she a knockout  
Passenger queen only when she rock out  
Hundred going ninety three, it's just top down yeah  
No sleep, chasing capital you'd think my name was OV  
I don't need no new friends, I got homies  
I been tryna do it big like they told me  
You could I'm at the  
Yeah the summer's ours  
If you see 'em going wild probably one of ours  
If you see me going out then it's outta style  
Girl we finally took a lead and it's by a mile  
Said it's by a mile, sixteen hundred meters  
We just ride around just to let 'em know who did it  
From this side of town, the floor is lava  
You woulda thought that it was solid ground

And if I'm not around

The summer is our our our our ours  
Makeshift fan in a broke down car  
Same ten friends at the same old bar  
Running up cards  
The summer is our our our our ours  
Told her this town's gonna break your heart  
I just wanna finish everything we start  
We've come too far

Love me loud, don't you downplay  
Love me now, not another day  
Double down, it's coming up spades  
Summer's ours, who's my twin flame?
