I went from this to this
Came a long way when that pshh was a trip
Took every shot, I unloaded the- I unloaded the
I unloaded the- I unloaded the- I unloaded the clip
Let me tell you somethin' 'bout
Baby, I like your energy
Tell me this ain't a fantasy
I wanna make a memory when I'm with you, just you and me

Aye, from back then, came a long way
Took a lot of work, took strong faith
You in good hands, it's all safe
You in good hands like Allstate
Ayy, oh my God, somebody said it
I like the view, I'm in it
Ooh, I let you in my head and
Can't get you out, you're in it
Can't get you out, can't get you out, can't get you out, nah
Can't get you out, can't get you out, can't get you out, nah

Look a little different when I look back
Notebook full of raps in a book bag
Look at me now, look at me now, look at me now

I went from this to this
Came a long way when that pshh was a trip
Took every shot, I unloaded the- I unloaded the
I unloaded the- I unloaded the- I unloaded the clip
Let me tell you somethin' 'bout
Baby, I like your energy
Tell me this ain't a fantasy
I wanna make a memory when I'm with you, just you and me
