

# Upside Down

Nic D

We been runnin' circles  
Til the vertical feels upside down  
Like tryna keep it casual  
Won't gradually break us down  
Put the blame on me  
Put the blame on me  
For always takin' my time  
Put the blame on you  
Do the same as I do  
Thinkin' bout your body on mine  
What a shame if we  
Never get to see  
The product of desire  
No smoke no fire

Stuck in those blurry eyes  
It's so contagious when you come alive  
Too much temptation  
Not to turn around  
Take it all off right now  
What if I turn around  
Flip your world upside down  
Don't make me fantasize  
Come cut this tension  
Hmm, it's runnin' wild  
What would it take  
For you to turn around  
Let your hair hit the ground  
What if you turn around  
Flip my world upside down

Whole town, heard about us  
Girl, I guess we viral  
Spin around like vinyl  
Know you wanna be Richie  
Like Lionel, got that  
Tension in a hotel lobby  
Released in a hotel room  
Stole a heart you a thief  
Was a robbery  
But it wasn't you

Put the blame on me  
Put the blame on me  
For always takin' my time  
Put the blame on you  
Do the same as I do  
Thinkin' bout your body on mine  
What a shame if we  
Never get to see  
The product of desire  
No smoke no fire

Stuck in those blurry eyes  
It's so contagious when you come alive  
Too much temptation  
Not to turn around

Take it all off right now  
What if I turn around  
Flip your world upside down  
Don't make me fantasize  
Come cut this tension  
Hmm, it's runnin' wild  
What would it take  
For you to turn around  
Let your hair hit the ground  
What if you turn around  
Flip my world upside down
