

upsides

Nic D

One hunnid
Woah, keep it up, Gavin!

Baby, are you up right now?
Let's talk, meet me in the upside down
Bein with me got a lot of upsides now
Got a lot of upsides now
She don't wanna sing, she won't sing along
No matter what I say, she gon' take it wrong
And baby wanna play, so I play along
And little does she know that I ain't stayin' long, uh

I hear you gotta battle with balance and paranoia
Just the part of me that's tryin' to get to know ya
And every day's a battle to get this chip from my shoulder
In every conversation I gotta hold back, I told ya, yeah
And I remember it was April, but you said it
And I ain't gonna hold on to it, won't use it for leverage
And I know you was goin' through it, I don't think you meant it
Nah (I don't think you meant it)

Baby, are you up right now?
Let's talk, meet me in the upside down
Bein with me got a lot of upsides now
Got a lot of upsides now
She don't wanna sing, she won't sing along
No matter what I say, she gon' take it wrong
And baby wanna play, so I play along
And little does she know that I ain't stayin' long, uh

And they pickin' my pocket, they takin' my wallet
But I don't have the energy to even try and stop it
And if I'm bein' honest, I don't like bein' modest
I'd rather go and tell 'em, babe, rather go and tell 'em, nah
Ooh, we not a parody, you need my love again
Show me the way, baby, I'ma keep walkin'
They throwin' shade, baby, we just keep dodgin'
No other way, baby, no other way, baby
Run from all the pain, but it just don't hit the same
This is from the hip, don't aim, this is everything I came
What is, what's gon' make you dangerous?
What's gon' keep me stayin' here wit' you?
So what's gon' keep me—

Baby, are you up right now?
Let's talk, meet me in the upside down
Bein with me got a lot of upsides now
Got a lot of upsides now
