Yeah, yeah  
Holy water, Holy grail  
Mister You-Don't-Know-Me-Well  
Hard to cove, so I don't  
Only thing we know for real is

We live and we die  
We learn when we try  
We on the same ride  
So just love while you alive

We all want deep pockets, we all want peace  
We all wanna delete trauma for good reason  
Yeah, we gon' see profit, remove all the toxic toxicity  
What you gon' accomplish with that toxic energy?  
Whatever you call it, just don't call it a mystery  
'Cause, you choosin' to be that way, you choosin' to be that way  
Yabadabado, I'm movin' it loose, scrabble  
I attack it when I move, I do it, I don't dabble  
I snap like crackle, pop  
The way you fishin' for a tip, you need a tacklebox

Yeah, yeah  
Holy water, Holy grail  
Mister You-Don't-Know-Me-Well  
Hard to cove, so I don't  
Only thing we know for real is

We live and we die  
We learn when we try  
We on the same ride  
So just love while you alive  
We live and we die  
We learn when we try  
We on the same ride  
So just love while you alive

Yeah, yeah, yeah, yeah  
While you alive, yeah  
Yeah, yeah, yeah, yeah

And that kick go, mm-mm-mm, knock 'em senseless  
Eyes on the prize when I swing for the fences  
Eyes on me, it's gettin' a little tense  
I'm the Kool-Aid man, I know how to make a entrance  
Aw, shit, what you know? Baby, I'm 'bout it  
Lot of y'all, psh, y'all lyin' to me  
Ion keep none of that around me, no  
Yeah, let's get rowdy  
Make a song and I play it loudly  
I'm blessed, I just paid my salary  
Head up when it get cloudy, yeah

We live and we die  
We learn when we try

We on the same ride  
So just love while you alive

Yeah, yeah, yeah, yeah  
While you alive, yeah  
Yeah, yeah, yeah, yeah  
While you alive, yeah  
Yeah, yeah, yeah, yeah  
While you alive, yeah, yeah
