

Work On That

Nic D

I just wanna work on that
Walk away and don't look back
She tells me, "baby would you work on that?"
But it really hurts so bad
Baby, I just wanna change
But sometimes we just stay the same

Yeah, yeah, yeah
Hopefully this don't come off too extreme
Lately it seems like we've been on different teams
Look, why so distant?
Maybe you missed it
I bought you flowers today
I even tried to cook you a steak
Ran me out the kitchen, nope, not my campaign
Love is so much more than sex and champagne
Havin' a hard time saying when I'm not okay
Don't wanna seem weak, man, that's so lame

I wish I could work on that
Walk away and don't look back
She tells me, "baby would you work on that?"
But it really hurts so bad
Baby, I just wanna change
But sometimes we just stay the same

Look, hopefully you can see that I got good intentions
Pure intentions, I've been workin' on the things that I heard you mention
If you love me let me know
God planted seeds in the friction, let us grow
It feels real good to be acknowledged for all the things I've been workin' towards
The strives that I've made as a man of God
I been holdin' out my hand to the hand of God
It ain't a subtle nod

It's time for me to work on that
Walk away and come right back
She tells me, "Baby would you work on that?"
But it really hurts so bad
Baby, I just wanna change
But sometimes we just stay the same
