

# Worry

Nic D

All I say is all I say don't get it twisted  
If I fade and fade away then would you miss him  
Take a listen if the beat is kickin'  
I'ma keep it drummin' somethin' like the pistons  
All the stuff you say  
It's kind of hard to ignore it  
But deep down in my soul I know what you think just ain't important  
Who are you to tell me who I am  
Me myself and I I'm true to them  
You see the stars I always shoot for them  
Got me feelin' like I'll never lose again

Everybody worried trying to find another road round  
While you in a hurry I'ma give you all the low down  
Focus on the journey you don't need to know the whole route  
Give it to who's worthy man he's carrying the load now

Worry, worry, worry  
Don't worry, worry, worry about it, about it  
Worry, worry, worry  
Don't worry, worry, worry about it, about it

Oh you got jokes I ain't even laugh  
Oh you got the answer I ain't even ask  
Nic where you goin' don't you need a map?  
Just following my feet never see the path, yeah  
Pray more worry less  
Realize everything is a blessing  
Oh Lord oh man here we go again  
Another damn rap song with a message

Everybody worried trying to find another road round  
While you in a hurry I'ma give you all the low down  
Focus on the journey you don't need to know the whole route  
Give it to who's worthy man he's carrying the load now

Worry, worry, worry  
Don't worry, worry, worry about it, about it  
Worry, worry, worry  
Don't worry, worry, worry about it, about it

Don't help me I got this my mind is so loud  
I think I need help but I think I'm too proud  
Don't help me I got this my mind is so loud  
I think I need help but I think I'm too proud

All that stressin' is it helpin'?  
I don't think so  
Your minds a weapon it'd you let it  
It will pow-pow-pow  
Knock em down-down-down  
Can't get out, can't get out, can't get, yeah

Worry, worry, worry  
Don't worry, worry, worry about it, about it  
Worry, worry, worry  
Don't worry, worry, worry about it, about it
