

# Daddy Needs This

Niceland

I know, oh I know  
Daddy needs this  
swallow your voice  
and put that little knife away

And I know, oh I know  
What are you dreaming of  
A simple night  
with lollipops and teddy-bears

You know, you know  
Daddy needs this  
Daddy needs this  
to feel alive again

'cause tonight  
He's gonna make a little slide  
'cause tonight  
he's gonna pick a lonesome fight  
tonight  
He's gonna put out all the lights  
Tonight , daddy needs his right

I know, oh I know  
He's been counting  
spider webs and broken wheels  
of passing trains

I know, oh I know  
how to start this  
but my senses blur  
when it gets to the end

You know, oh you know  
Daddy needs this  
Daddy needs this  
to fall asleep again

'cause tonight  
he's gonna make a little slide  
'cause tonight  
he's gonna pick a lonesome fight  
tonight  
He's gonna put out all the lights  
Tonight, daddy needs his right
