

## Make It Last

Niceland

Tonight is not your night, you're  
not the one to kiss and tell  
It's not you who's getting lucky after all  
I kept the curtains down and low profile  
but I gotta always undermine  
what a stupid dick you are  
I am not even being hard on you

Make it last forever  
Make this last

Is your life getting so boring with your  
little book of friends  
What's your secret and  
do I even want to know?  
You left me with our fiftieth truce  
Don't tempt me to play by your rules  
I won't care no more if there are  
people getting cursed and hurt

Make it last forever  
Make this last
