

# Warning Light

Nick Brewer

'Cause we're here all night getting warm inside  
They know what I mean nobody leaving 'til it's morning time  
Let 'em fall in line, it's not a boring vibe  
When your hands all clash and the cameras flash like a warning light  
Like a warning light

Mind my boat  
Big sea I'm just tryna float  
Miss me it's no matter though  
Sign I was thinking time to go  
Let 'em inside they ain't getting a ride  
When I get ripe I'll be setting a vibe  
Never the type to be fretting a guys  
Jekyll and Hyde got nothing to bribe, whoa  
Bet it won't show  
I ain't scheming don't know  
I ain't leaving don't go  
Break even no dough  
Flow like a bounce on a Pogo  
Going up and down like a low blow  
Have another round  
I just want to shut it down like it won't close

But why you never dance for?  
Why you never dance for?  
Even when the DJ's playing the song that you asked for  
Get up on the dance floor, please don't make me ask more  
I just want to see you move your feet don't wanna start war

Why you never dance for?  
Even when the DJ's playing the song that you asked for  
Get up on the dance floor  
I just want to see you move your feet don't wanna start war

Cause we're here all night getting warm inside  
They know what I mean nobody leaving 'til it's morning time  
Let 'em fall in line, it's not a boring vibe  
When your hands all clash and the cameras flash like a warning light  
Like a warning light

Yo, why you come to the dance if you ain't gonna dance?  
Come late night creep girl, come take a chance  
(Come creep with us)  
Got girls on the ends, got girls up in France  
(Bonjour)  
She loves me, can't do what I do and I do what they can't  
(I do what they can't)  
Stiff choco  
(Yeah?)  
Rolled up with Reese in the Rocco  
(True)  
I just came into vibes and wave with the girls in the rave when a shout out  
yella  
But live and let live it's all good here  
(All good here)  
Boss in the club you be good here  
(You good here)

Why you just stood there?

(Why?)

Wait, why you wearing your hood here?

'Cause we're here all night getting warm inside  
They know what I mean nobody leaving 'til it's morning time  
Let 'em fall in line, it's not a boring vibe  
When your hands all clash and the cameras flash like a warning light

But why you never dance for?

Why you never dance for?

Even when the DJ's playing the song that you asked for  
Get up on the dance floor, please don't make me ask more  
I just want to see you move your feet don't wanna stop, woah

Come down when they been up  
Sign that they wanna wheel up  
Wanna tell replay with the beat thump  
Tryna believe that I'm fine on my feet  
But I'm signing no preup  
Spitting a rhyme no need, bud  
Giving the time no speed up  
Think I'm shy no diva  
Living my life they might be living a lie don't believe ya  
And I don't hear what they say  
See them eyeing on the come up  
Forgotten about the same day  
No dough but I wanna make change  
Solo but I've got a brainwave  
Low, low, never showboat  
No goad on the game face

But why you never dance for?

Why you never dance for?

Even when the DJ's playing the song that you asked for  
Get up on the dance floor, please don't make me ask more  
I just want to see you move your feet don't wanna start war

Why you never dance for

Even when the DJ's playing the song that you asked for

Get up on the dance floor

I just want to see you move your feet don't wanna start war

'Cause we're here all night getting warm inside  
They know what I mean, nobody leaving 'til it's morning time  
Let 'em fall in line, it's not a boring vibe  
When your hands all clash and the cameras flash like a warning light  
Like a warning light
