

# Big Clouds

Nick Cannon

Why you going upward huh?  
Unh

Watching all these people fall, watching all these people change  
For money and them strange things  
I been really out the way, they tryna talk I'm not today  
She be tryna conversate, I tell her that shit complicated  
Oh lord, this shit is crazy, they been lying lately  
Yeah lord, they kill our babies I been crying lately  
How the fuck they say I'm racist when we dying daily  
Pain coming, feel it in the air, I smell that rain come  
Say they love me then they switch and try  
To strip my name from me, my people with me  
I done took some losses, some I can't remember  
They hated on me, that nigga lost me I can't fake with him  
No, no-no-no

Watching all these people fall, watching all these people change  
For money and them strange things  
My people tryna find a way  
They want truth, got time today  
Ain't feeling like I use to ooh, I been hurting, I been oh so through  
Everybody smokin' now, I'm tryna what that about  
I tell 'em cut that capping out

I got big clouds all over my head  
Big clouds and they raining on me  
They say one day it's gon' change  
I say I'm waiting on it  
I wear this crown like a king  
They can't take it from me  
No, no-no-no

Watching all these people fall, watching all these people change  
For money and them strange things  
My people tryna find a way  
They want truth, got time today  
I got big clouds all over my head  
Big clouds and they raining on me  
Just wanna help my people make it  
No wonder why these people hate me  
Strange fruit up in these trees  
Can't dap 'em, we just leave 'em hanging  
I got big clouds all over my head  
Big clouds and they raining on me  
Just wanna help my people make it  
No wonder why these people hate me  
Strange fruit up in these trees  
Can't dap 'em, we just leave 'em hanging

We gon' smoke  
We gon' smoke (Strange fruit up in these trees, can't dap 'em, we just leave  
'em hanging)  
Smoke (We gon' smoke)  
We gon' smoke

I got big clouds all over my head

Big clouds and they raining on me  
I just wanna help my people  
The big, big clouds

We gon' smoke (We gon' smoke)  
We gon smoke (Yeah, yeah, yeah)  
We gon' smoke (I'm tryna smoke with you)  
We gon' smoke (Oh, oh, oh)  
We gon' smoke (I wanna smoke)  
We gon' smoke (Ooh)  
We gon' smoke (What we gon' do?, what we gon' do?)  
We gon' smoke (I wanna smoke, smoke, smoke with you)
