

It's 7:30 in the morning
I smell eggs over easy
In those pajamas that I like girl
Lil mama knows how to please me
I hear the kids waking up screaming mom and daddy "where you at" downstairs
Give her a kiss on the cheek as she winks, said I see you later on "hell yeah"
h"

I swear that you got something special love
That comes from up above
But I'd never give you up
'Cause you make this

You make this look easy
Ohh ohh ohh
You make this look easy
Ohh ohh ohh
And how you do everything with style and grace
I think god that you're for me, yeah yeah yeah
'Cause you make it easy to love you
La la la la la la la la you make it look easy
La la la la la la la

You keep my heart beat beating
And girl, I'm feening
For more time with you
More love with you girl is what I'm needing
And just a kiss from your lips is enough to keep my world just spinning
And don't rush girl
Just trust it girl
In feel what I'm feeling

I swear that you got something special love
That comes from up above
I'd never give you up
'Cause you make this

You make this look easy
Ohh ohh ohh
You make this look easy
Ohh ohh ohh
And how you do everything with style and grace
I think god that you're for me, yeah yeah yeah
'Cause you make it easy to love you
La la la la la la la la
La la la la la la la la la la la la la la la la
You make it look easy

How do you do everything with style and grace
I think god that you're for me, yeah yeah yeah
'Cause you make it easy to love you
La la la la la la la la la la la
You make it look easy
La la la la la la la la la love you!
