

# Horoscope

Nick Carter

I had a gipsy girl with the moon on her hand  
And the sun on her back, covered in sand  
Crazy, and she made me forever young

And she tied me up with Orion's belt  
And she kept me there underneath her spell  
Yeah we had it, we were magic on the run

I thought we were written in the stars  
She said our love was in the cards  
Show we got faith could save my heart

No I don't wanna know  
My horoscope, my horoscope  
No I don't wanna know  
My horoscope, my horoscope

Yeah I knew all along she would make me fall  
'Cause it's all in there in her crystal ball  
But it left me, when she told me we were done

I thought we were written in the stars  
She said our love was in the cards  
Show we got faith could save my heart

No I don't wanna know  
My horoscope, my horoscope  
No I don't wanna know  
My horoscope, my horoscope

No I don't wanna know  
No, I don't wanna know, don't wanna know  
Don't wanna know, I don't wanna know

Every type she had told me who she was  
And it faded away, yeah just like us  
Now I'm only just a lonely bohemian

I thought we were written in the stars  
She said our love was in the cards  
Show we got faith could save my heart

No I don't wanna know  
My horoscope, my horoscope  
No I don't wanna know  
My horoscope, my horoscope
