

Made For Us

Nick Carter

Moonlight
Two hearts
Beat closer than they did before
You and I
From the start
Had something but we wanted more

Always said maybe in another life
Yeah, I could be your love and baby you could be mine
One time, once the sun comes up it's over
But before it's over

Hold on and make me believe in a world that never was
Hold on and take me cause baby tonight was made for us
We're flying over the angels and dancing to the edge of the night
Hold on and make me believe in a world that never was
Made for us

Don't stop
Stay close
I promise that I'll never let
You get
Too far
This touch is what we're living in

Now we're running like the rain on fire
Slow motion every moment in the blink of an eye
One night, once the sun comes up it's over
But before it's over

Hold on and make me believe in a world that never was
Hold on and take me cause baby tonight was made for us
We're flying over the angels and dancing to the edge of the night
Hold on and make me believe in a world that never was
Made for us

We're flying over the angels
And dancing to the edge of the night
You've given all of your halos
And without you I can't survive

Hold on and make me believe in a world that never was
Hold on and take me cause baby tonight was made for us
We're flying over the angels and dancing to the edge of the night
Hold on and make me believe in a world that never was
Made for us

It's a world that was made for us
It was made it was made for us
