## There Is a Town

## Nick Cave & The Bad Seeds

There is a town Where I was born Far far away Across the sea And in that town Where I was born I would dream That one day I would leave And cross the sea And so it goes And so it seems That God lives only in our dreams In our dreams And now I live In this town I walk these dark streets Up and down, up and down Under a dark sky And I dream That one day I'll go back home

And so it goes And so it seems That God lives only in our dreams In our dreams
