

We Live Forever

Nick Fradiani

Never thought I wanted this but it chose me
Never thought I could where I wanted to be
But ever since I was a kid I thought differently
Ever since I was a kid, yeah

I remember, I remember
This one time
Someone told me, someone told me

Hey, heyo, we live forever, this is forever
We won't go, we won't surrender, we won't surrender
You can say what you want but believe in and out we're meant for more
Than you thought we were
Heyo, we live forever, this is forever

What you said won't hurt me 'cause words wash away
What you did won't kill me, no, I'll live another day
I'm stronger than I should be
I'm stronger now

I remember, I remember
This one time
Someone told me, someone told me

Hey, heyo, we live forever, this is forever
We won't go, we won't surrender, we won't surrender
You can say what you want but believe in and out we're meant for more
Than you thought we were
Heyo, we live forever, this is forever

Hey, heyo, we live forever, this is forever
Hey, heyo, we live forever, this is forever

Never thought I wanted this but it chose me
Never thought I could where I wanted to be

Hey, heyo, we live forever, this is forever
We won't go, we won't surrender, we won't surrender
You can say what you want but believe in and out we're meant for more
Than you thought we were
Heyo, we live forever, this is forever

Hey, heyo, we live forever, this is forever
Hey, heyo, we live forever, this is forever
We live forever, this is forever
We live forever, this is forever
We live forever, this is forever
We live forever
