

# Farmissplease

Nick Hakim

You've seen all my mistakes  
And I know you're there, I've seen you  
You left blood on your face  
I know, It's over now

I try to fix myself by drinking more  
By smoking good, but paranoia  
Just give me substance, that'll fix me good  
Fix me good  
I know that you're there, I know that you're there  
I know that you're there, I know that you're there

Just fix me good (fix me good)  
Just fix me good (fix me good)

Fix me good in the morning  
Fix me good in the evening  
Fix me good in the morning when I wake up  
Fix me good in the evening before I sleep
