

Feeling Myself

Nick Hakim

Feeling myself, I'm feeling myself
(Right now, right now)
Feeling so good under your spell
Can't feel my face, there's nothing below me
Damn, I'm floating

You got my
Tongue out of my mouth
Tongue out
I'm addicted
Addicted to loving you

Feeling myself, I'm feeling myself
(Right now, right now)
I got a few tricks under my belt
I love being your heart shaped guitar
I love the way you play me

You got my
Tongue out of my mouth
Tongue out
I'm addicted to loving you

I'm feeling myself, I'm feeling myself
(Right now, right now)
I don't want nobody, don't want no one else
I think my face is starting to melt
I feel like we're on fire

You got my
Tongue out of my mouth
Tongue out
I'm addicted to loving you
(To loving you)

The visions that you have in your mind (right, right now, right now)
They can come true if you give it some time
Right
Right now, right now
Just give it some time
Just give it some time

The visions that you have in your mind (right, right now, right now)
They can come true if you give it some time
Right
Right now, right now
Just give it some time
Just give it some time
