You've been dripping in my mind
Stripping slowly, thank God
I'm not blind
And even when I close my eyes
I see things I've never felt
In this life of mine, yeah, yeah
My mind swims up in the sky
Come and float around with me
Let's go kill some time

Up here, oh
It's cool
Let's stay
Up here and never come down
Let's just fly away

I know you got somewhere else
To be, but I want you right here with me
Floating in the greatest love
Glad you grabbed me while I was sinking, ooh
Now I'm floating
Up here with you

Up here
It's cool
Let's stay
Float up and never come down
Let's just fly away
