

## Roller Skates

Nick Hakim

I've thought about it every day now  
And taking you for granted is going to change now  
I can't believe I left you up waiting  
Will you forgive me although I've forsaken

All of you  
All of you  
All of you

Here's to you dear let's do what you want to  
Put my mind downstairs, let's go for a ride  
Look into the mirror while I drink your nectar  
A couple days later it's never felt better

With all of you  
All of you  
All of you  
All of you
