

The Light

Nick Hakim

Will you meet there me at the old skies?
You'll know where to go, we've been there before
And I'm always real, so glad you came
We'll carry on to where we belong

And I know that it's real
Yes I know that it's real
I ain't dreamin'
I ain't dreamin'

Will you meet there when the time is right?
You'll know where to go, just follow the light
And the light that shines after the rain
And rain means blessings
So let's go

And I know that it's real
Yes I know that it's real
I ain't dreamin'
I ain't dreamin'
I ain't dreamin'
I ain't dreamin'
