You were smiling cheek to ear (Woo)  
A distorted mess with love in your heart  
I'm so proud that we're here  
And you poured me a glass (Woo)  
Of precious wine you kept sealed in the back of your mind  
I've been out of (Woo) my head  
The warmth of your hands gently arrived and reeled me in (Woo)  
I just pray we don't crash (Woo)  
I just wanna lay here while it lasts  
Time's been moving fast (Woo)

I stopped abusing myself or pounding  
I started using myself around you  
I stopped abusing myself around you  
I started using myself around you

You were smiling cheek to ear  
But this studded mess with love in your heart (Woo)  
I'm so proud that we're here  
And you poured me a glass (Woo) of precious wine you kept sealed in the back of your mind  
I just hope we don't crash  
I just wanna lay here while it lasts  
Time's been moving fast (Woo)

(Woo, woo)  
I stopped abusing myself or pounding (Oh, oh-oh-oh)  
I started using myself around you  
(I started using myself)  
I stopped abusing myself around you  
(I started using myself)  
I started using myself around you  
(I started)

(Woo, woo)  
I started using myself  
I started using myself around you  
I stopped abusing myself around you  
I started using myself around you
