

Aphrodite

Nick Jonas

I know you hate it when
Someone calls you "baby"
Can we share that cigarette
Even when you hate me?
'Cause you do what you do and you do it so well

That's my Aphrodite
Makes me wanna die
As soft as she might be
We both know that's a lie
Just when you think you're over
She gets you every time
'Cause you do what you do and you do it so well
'Cause you do what you do and you do it so well

Just give me one more night
And I won't call tomorrow (I won't call tomorrow)
Ruin my whole life
You're one tough act to follow
'Cause you do what you do and you do it so well

That's my Aphrodite
Makes me wanna die
As soft as she might be
We both know that's a lie
Just when you think you're over
She gets you every time
'Cause you do what you do and you do it so well
'Cause you do what you do and you do it so well
'Cause you do what you do and you do it so well
'Cause you do what you do and you do it so well
Yeah, you do what you do and you do it so well

Can we share that cigarette?
