

# Dangerous

**Nick Jonas**

Wake me up inside  
Turn my darkness nights into something real  
They say take your time  
What's the rush but I know the way I feel

And all those flashing lights  
Be keep trying to tell me if it's love and take it slow  
But they cant change my mind  
Yet sometimes we play with fire even though we know  
Yeah, I know

Lovin' you is dangerous  
But that's all I wanna do, it's dangerous  
Don't care what you put me through  
My heart told that I can't come back anytime  
Yes, so I fly away  
Can I stop lovin' you

Open up the door, I'm coming back for more  
Almost like we, uh... yeah, yeah, yeah  
Scares me half to death  
The way you take my breath  
But we both know we, uh... no, no, no...

And all those flashing lights  
Be keep trying to tell me if it's love and take it slow (take it slow)  
But they cant change my mind  
Yet sometimes we play with fire even though we know  
Yeah, I know

Lovin' you is dangerous  
But that's all I wanna do, It's dangerous  
Don't care what you put me through  
My heart told that I can't come back anytime  
Yes, so I fly away  
Can I stop lovin' you

It's dangerous  
That's all I wanna do, it's dangerous  
Don't care what you put me through  
My heart has decided, still I try to fight it  
Now, I fly away  
Can I stop lovin' you

It's dangerous, yeah, it's dangerous  
You wake me up inside  
Turn my darkness nights into something real

Oh, I'm lovin' you, it's dangerous  
That's all I wanna do, it's dangerous  
Don't care what you put me through  
My heart told that I can't come back anytime  
Yes, so I fly away  
Can I stop lovin' you

It's dangerous  
That's all I wanna do, it's dangerous

Don't care what you put me through  
My heart has decided, still I try to fight it  
Now, I fly away  
Can I stop lovin' you, it's...

Can I stop lovin' you, it's...  
Can I stop lovin' you, it's dangerous
