

# Delicious

Nick Jonas

Tongue between your teeth and angel eyes  
I know it's going down tonight  
Something in the way you move your thighs  
I like watching, I like watching

Little bit of sweet, you got the spice  
I know it's going down tonight  
Everybody wants to take a bite  
They like watching, they like watching you  
They like watching, they like watching  
They like watching, they like watching you

And I ain't tryna waste no time  
They like watching, they like watching  
They like watching, they like watching you  
Feels like you can read my mind because

You know that I want it  
Baby, you're so delicious  
Three in the morning  
Dripping in definition  
Watch your body moving left and right  
Got me working up an appetite  
I'm licking the dishes  
'Cause, baby, you're so delicious

Little bit of bubbly on the side  
I know it's going down tonight  
I don't mind the looks from other guys  
They like watching, they like watching you  
They like watching, they like watching  
They like watching, they like watching you  
Yeah, and I think you can read my mind 'cause

You know that I want it  
Baby, you're so delicious  
Three in the morning  
Dripping in definition  
Watch your body moving left and right  
Got me working up an appetite  
I'm licking the dishes  
'Cause, baby, you're so delicious

You know you're so delicious, baby, yeah  
So delicious  
You're so delicious

You know that I want it  
Baby, you're so delicious  
Three in the morning  
Dripping in definition  
Watch your body moving left and right  
Got me working up an appetite  
I'm licking the dishes  
'Cause, baby, you're so delicious  
So delicious  
So delicious

So delicious
