

# Hope

Nick Jonas

Back when I was young, my faith was on fire  
In my Sunday best, singing with my chest  
While the band played again for revival  
All those younger days went away in a hurry  
And now all that's left is a lifelong test  
And I can't seem to find my way

I need some hope  
Where's the silver lining cutting through all the smoke?  
I need some hope  
Praying that the devil loosens up his hold, oh, oh  
I need some hope  
Waiting till I'm on the other side of a miracle  
I need some hope  
If I'm not alone, please let me know, know, know  
I need some

Changing, Lord, I've been going through changes  
And my faith's still strong, but it won't last long  
If I don't hear from You someday soon  
And I've had enough, had enough of the fighting  
I still believe, I still believe every word that You wrote in that book

I need some hope  
Where's the silver lining cutting through all the smoke?  
I need some hope  
Praying that the devil loosens up his hold, oh, oh  
I need some hope  
Waiting till I'm on the other side of a miracle  
I need some hope  
If I'm not alone, please let me know, know, know  
I need some

Lift me up when I'm too weak to stand  
And show me it's part of Your plan  
In the silence, I still feel the touch of Your hand  
And that gives me

Hope  
Where's the silver lining cutting through all the smoke?  
I need some hope  
Praying that the devil loosens up his hold, oh, oh  
I need some hope  
Waiting till I'm on the other side of a miracle, mm  
I need some hope  
If I'm not alone, let me know, know, know  
I need some hope

I need some, I need some hope (Need some hope)  
I need some, I need some hope (Yeah)  
I need some, I need some  
I need some
