

My Love

Nick Jonas

I want to write you a love song
And I want whisper in your ear
I want to be the right when it's wrong
I want to take away your fears

I need to hold you again
I need to feel you close
Who knows exactly where we're going?
But I'm ready to go down this road
It's true, with you
It's true, it's true, my love.
