

# Princesses

Nick Jonas

I use my imagination for a living  
I tell stories and build worlds  
But I've never wanted one more  
Than this one with my little girl  
I'm fascinated by your questions  
I'm terrified to let you down  
There's no one and nowhere that I'd rather be  
Than with you right here, right now

Let's play princesses  
A whole universe in your mind  
Let's play princesses  
Just me and you tonight  
Let's play princesses  
Princesses

Can I ask you a favor?  
Can you stay this small?  
'Cause sooner or later, you're seven or eight  
And that dress just won't fit anymore  
So pull up the carriage, strike up the band  
Everyone at the palace watching us dance  
Saturday morning, stay in the moment  
For every second I can

Let's play princesses  
A whole universe in your mind  
Let's play princesses  
Just me and you tonight  
Let's play princesses  
I wanna see the world through your eyes  
Let's play princesses  
Yeah, yeah  
Forever, just you and I

I get so caught up in doing my job  
Put food on the table but missing the plot  
You left me speechless the moment you started to talk  
So don't stop

Let's play princesses, mm, yeah  
A whole universe in your mind  
Let's play princesses  
Just me and you tonight  
Let's play princesses, oh yeah  
I wanna see the world through your eyes  
Let's play princesses, oh  
Forever, just you and I

Let's play princesses  
Let's play princesses  
Let's play princesses
