

Selfish

Nick Jonas

These are the days we dream about
Two lonely hearts from different worlds, our heads in the clouds
You take the words right out of my mouth
I'll take the part of you that's still running around

Don't let me go, don't let me go, don't let me go in the night
I wanna live, I wanna live, I wanna live in your lie
Don't ever wanna be the one that needs it all
But you know, yeah, you know, yeah, you know

I wanna be selfish, selfish
For you and not for me
I wanna be loveless, selfless
Want all of you for me
I wanna be the only thing you can't live without
Everyday, every night, when you try to breathe
I wanna be selfish, selfish
Want all of you for me

We've got a lot to write about
Your body is a work of art I can't live without
Whisper my name and say it loud
You give me wings to fly again, I'll never come down

Don't let me go, don't let me go, don't let me go in the night
I wanna live, I wanna live, I wanna live in your lie
Don't ever wanna be the one that needs it all
But you know, yeah, you know, yeah, you know

I wanna be selfish, selfish
For you and not for me
I wanna be loveless, selfless
Want all of you for me
I wanna be the only thing you can't live without
Everyday, every night, when you try to breathe
I wanna be selfish, selfish
Want all of you for me

All of you for all of me
All of you for all of me
All of you for all of me
All of you
All of me
All of you for all of me (All of you for all of me)
All of you for all of me (All of you for all of me)
All of you for all of me (All of you for all of me)
All of you
All of me

I wanna be selfish, selfish
For you and not for me
I wanna be loveless, selfless
Want all of you for me

I wanna be the only thing you can't live without
Everyday, every night, when you try to breathe
I wanna be selfish, selfish

Want all of you for me

These are the days we dream about
