

When We Get Home

Nick Jonas

Talking crazy when you come
It's not your fault I got a one track mind for you
I'm not your everything, I know that
Keep breathing in this moment, reality is coming

Oh, when we get home
Suffer, when we get home
We know we're crazy
We'll never make it
Oh, when we get home

Are we there yet, are we almost home?
Are we there yet? I don't wanna go
Are we there yet, are we almost home?
Are we there yet, are we there yet?

Feeling hazy when you wake up
We knew we had to come down sometime
And now, yeah we're fierce, oh yeah, fucked up
We're choking on this moment, reality is coming

Oh, when we get home
Suffer, when we get home
We know we're crazy
We'll never make it
Oh, when we get home

Are we there yet, are we almost home?
Are we there yet? I don't wanna go
Are we there yet, are we almost...
Are we there yet, are we there yet?

Oh, when we get home
Suffer, when we get home
We know we're crazy
We'll never make it
Oh, when we get home

Are we there yet, are we almost home?
Are we there yet? I don't wanna go
Are we there yet, are we almost home?
Are we there yet, are we there yet?

We know we're crazy
We'll never make it
Oh, when we get home
Yeah, when we get home

Are we there yet, are we almost home?
Are we there yet, are we there yet?
(Yeah, when we get home)
