

## Deja Vu

Nick & Knight

It's like I'm lost in a candy store  
Too many hearts for me to choose  
From the floor straight to the roof  
What's a man like me to do?  
Now I shouldn't ask for more but my heart is an open door  
I know that I might be a fool but they're all so beautiful

It's kinda hard for me to imagine  
I fell in love three times like a hat trick  
The way you keep showin up girl your magic straight magic  
So here I go again I love them all to pieces  
Your not so innocent it's all right baby you know I know we so  
deja vu  
So here we go again don't mind if we repeat it  
It's all right baby you know I know we so deja vu  
Deja Deja you know I know we so deja vu

I know I must use common sense  
But I just can't say no again  
It's like the fell outta heaven  
But I'm a sucker for the sin  
I know that one plus two is bad  
But I was never good a math  
So what's wrong with a little more three or four yeah yeah yeah

It's kinda hard for me to imagine  
I fell in love three times like a hat trick  
The way you keep showin up girl your magic straight magic  
So here I go again I love them all to pieces  
Your not so innocent it's all right baby you know I know we so  
deja vu  
So here we go again don't mind if we repeat it  
It's all right baby you know I know we so deja vu  
Deja Deja you know I know we so deja vu

So pardon my french but I can't remember how I even know your n  
ame  
Is it all in my head have you and I met it doesn't matter anywa  
ys  
When were runnin in circles you won't hear me complain  
Cause it feels like the first time whenever I see your face

So here I go again I love them all to pieces  
Your not so innocent it's all right baby you know I know we're  
so deja vu  
So here we go again don't mind if we repeat it  
It's all right baby you know I know we're so deja vu

Deja Deja you know I know we so deja vu
