

Between Dark And Dawn

Nick Lowe

when you feel your all in
and you've decided you cant win
tell yourself it wont be for long
your between dark and dark
you've got too much time you cant kill
your wheels are spinnin but you're standin still
it's all flat and forlorn
in between dark and dawn
your so blue you cant see
one day all this will be history
now I've been a fool but I'm not wrong
your between dark and dawn
between dark and dawn,
between dark and dawn
that's where nothings always goin on
you'll be on the phone before to long
but right now
your between dark and dawn
wait till the sun comes out
your gonna wonder what the fuss was all about
you've been standing in the rain
but pretty soon your gonna be on you way again
between dark and dawn, your between dark and dawn,
between dark and dawn, your between dark and dawn
