

Cry It Out

Nick Lowe

Cry it out
Cry it out
Let the tears work the hurting out
It will all wash away one day

Cry it out
Cry it out
Let it go, let the hurting spout
It will all flow away one day

Cry it out
Cry it out
It's hard to believe, I know
But your clouded skies one day will be blue
First you have to cry it out like a baby
Just like working for a living
It's the natural thing to do

Cry it out
Cry it out
Let the tears work the hurting out
It will all wash away one day

Cry it out
Cry it out
It's hard to believe, I know
But your clouded skies one day will be blue
First you have to cry it out like a baby
Just like working for a living
It's the natural thing to do

Cry it out
Cry it out
Let the tears work the hurting out
It will all wash away one day
Cry it out

It will all wash away one day
It will all wash away one day
It will all wash away one day
Cry it out
Cry it out
Cry it out
