

# Imogen

Nick Mulvey

I always thought that I knew where  
I came from  
And I always thought that I knew how  
And I was wrong  
It ain't over now yeah  
No it ain't over now yeah

And God [?]  
Can we all get along  
Here in the eye of the storm  
Imogen  
Woah my heroes came to ask the same  
And in their glories I learned your name  
And here I am again  
Before you

Singing it ain't over now yeah  
No it ain't over now yeah

I always thought that I was my mind  
And this body too  
Until I asked myself what is looking  
Looking through  
Then all my different names  
They drift away  
I watch them fade like tears in the rain  
And here I am again  
Before you

Singing it ain't over now, yeah  
No it ain't over now yeah

It ain't over now yeah  
No it ain't over now yeah
