

It's Alright

Nick Santino

Hell oh my only friend, it's good to hear your voice again
Did the wind bring you home, did you go back all alone?
I haven't been back there since the weather caught me unprepare
d
did you plan to stay awhile? Cause I'd fly back to see that smi
le

and when you're all alone and I'm miles away
it's alright if you call me
and if you're tired and you can't sleep, and its late in Tennes
see
it's alright if you call me
it's alright if you call me

I miss the way you look at me when you're eyes are half asleep
and then you drift somewhere, nodding off on a kitchen chair
I lift you up and carry you upstairs like lovers on a honeymoon

And we're awake, we'll both go our separate ways

When you're all alone and I'm miles away
its alright if you call me
And if you're tired and you can't sleep, and its late in tennes
see
it's alright if you call me
it's alright if you call me

I know someday I'll hold your hand
cause you got a way and I gotta plan
and I've been waiting for the right time babe
Tonight is the night we get way,
tonight is the night we get away

When you're all alone and I'm miles away
it's alright if you call me
And if you're tired and you can sleep and its late in Tennessee

it's alright if you call me
it's alright if you call me
it's alright if you call me
