

Natural Kind of Love

Nickel Creek

Dogs bark at the man with mail
Leaves fall from a tree
They're just some things in this whole world that happen naturally
Take the way the heavens glow
The stars that shine so bright
They wait up there in that sky all day
And light our face at night

Oh there's something pure and simple about those stars above
And it will be the same for me
If I can find that natural kind of love

Consider how the flowers grow when everything's just right
They open up so beautiful I never question why
I think about how birds fly south
They follow nature's signs
When winter winds begin to howl they head out right on time

Oh there's something free and easy about those birds above
And it will be the same for me
Once I find that natural kind of love

I look at how the morning sun always knows the time
Years have come and years have gone and seen it rise and shine
And I can see how love can be like the sun above
It's going to be that great for me
If I can find that natural kind
If I can find that natural kind of love
