

2012

Nicklas Sahl

Do you remember back in 2012
'Cause I do
That's when you left me for somebody else
I said I'll call you so I blame myself
What a fool
It was the summer of 2012

We had something
I called it nothing
And now nothing's all I want
You were hopeful
I was doubtful
And then one day you were gone

I still feel you, hear you
Singing with the radio
Don't say I'm dreaming
'Cause it feels better than real
In the sunlight ghostlike
There you're standing in the glow
Don't say I'm dreaming
'Cause I want it to be real

Do you remember all the things you said?
'Cause I do
Before you love me for somebody else

We had something
I called it nothing
And now nothing's all I want
With him you are hopeful
And that's really hurtful
I can't believe that you are gone

I still feel you, hear you
Singing with the radio
Don't say I'm dreaming
'Cause it feels better than real
In the sunlight ghostlike
There you're standing in the glow
Don't say I'm dreaming
'Cause I want it to be real

You make my ground shake
Feels like an earthquake
Leaves me with heartbreak
Don't say I'm dreaming
You make my ground shake
Feels like an earthquake
Leaves me with heartbreak

I still feel you, hear you
Singing with the radio
Don't say I'm dreaming
'Cause it feels better than real
In the sunlight ghostlike
There you're standing in the glow

Don't say I'm dreaming
'Cause I want it to be real
