

# All I Really Know

Nicklas Sahl

All I know is that life has a life of its own  
With your circus clowns in a world that we can't control  
You get someone new, someone as gentle and brutal  
It's highs and lows  
Yeah one thing's for sure, life has a life of its own

Oh oh oh when I fall I get back up again  
Oh oh oh that's all I'm on top of it

All I really know, all I really know  
All I really know, all I really know  
It's my hippy life and it go to show  
I got bills by the back door  
Bills by the stacks though  
Won't get a heart attack no  
Gonna stick to what I really know  
All I really know

I close my eyes from the things that I'm yet to see  
As I'm reaching out for the moment in front of me  
And I say

Oh oh oh when I fall I get back up again  
Oh oh oh that's all I'm on top of it

All I really know, all I really know  
All I really know, all I really know  
It's my hippy life and it go to show  
I got bills by the back door  
Bills by the stacks though  
Won't get a heart attack no  
Gonna stick to what I really know  
All I really know  
All I really know

I'll steal the silver best believe  
I'ma clean it up and take the spoon  
Perfume for my soul is freedom  
Who's gonna stop me won't be you

I'll steal the silver best believe  
I'ma clean it up and take the spoon  
Perfume for my soul is freedom  
Who's gonna stop me won't be you

All I really know, all I really know  
All I really know, all I really know  
It's my hippy life and it go to show  
I got bills by the back door  
Bills by the stacks though  
Won't get a heart attack no  
Gonna stick to what I really know  
All I really know

All I really know, yeah  
That's all I'm on top of it
