

Breathe

Nicklas Sahl

I wanna daydream 'bout a child who felt that I could fly
Close your eyes and drive, I'm dreaming while life passes by
We wanna be free, wondering, "Could it be easy?"
Traveling with time, so pacify me for a moment

I wanna daydream with you
Wanna re-run precious time
Wanna daydream with you just so we can breathe
I wanna daydream with you
Wanna re-run precious time
Wanna daydream with you just so we can breathe

Going way too fast, I don't know if you are aware
We should take a break, please baby, could we stop for here?
We wanna be free, wondering, "Could it be easy?"
Try a different road and pacify me for a moment

I wanna daydream with you
Wanna re-run precious time
Wanna daydream with you just so we can breathe
I wanna daydream with you
Wanna re-run precious time
Wanna daydream with you just so we can breathe

Just so we can breathe

So tell me what we are chasing?
Why we are in such a rush?
All this life we're wasting, I'm passing
And worried so much

I wanna daydream with you
Wanna re-run precious time
Wanna daydream with you just so we can breathe
I wanna daydream with you
Wanna re-run precious time
Wanna daydream with you just so we can breathe
I wanna daydream with you
Wanna re-run precious time
Wanna daydream with you just so we can breathe
