

Devil On Your Shoulder

Nicklas Sahl

You never fly if you don't believe it
Don't waste your time on a stupid feeling
You think it's love then I fear you mean it
It's not right right now
You know you'll only let it down
It's not right right now
You know

But still you feel this great desire
That maybe she could take you higher
But that's a selfish way to put it

'Cause it's not right right now
You know you'll only let her down
It's not right right now
You know

I'm just the devil on your shoulder
And you listen to angels now
You never hear me when I call ya, oo
Yeah, I'm just the devil on your shoulder
And I whisper the ugly truth
You never hear me when i call ya, oo

It's getting cold, too cold for devils
I'll find another place to settle
And you're advice will come from heaven

Maybe it's right right now
Maybe you'll never let her down
Maybe it's right right now
Go find out, oo

I'm just the devil on your shoulder
And you listen to angels now
You never hear me when I call ya, oo
And I'm just the devil on your shoulder
And I whisper the ugly truth
But you never hear me when I call ya, oo

Devil on your shoulder
Why don't you hear me
Hear me when I call ya
Hear me when I call ya

I'm just the devil on your shoulder
And you listen to angels now
You never hear me when I call ya, oo
