

Harmony

Nicky Romero

I was stuck in the dark
You pulled me through the doors that you opened
I held on my heart to follow you
Now I am golden

So before we see the sun is up
Hold me in a dream
What a moment for the both of us
Only you and me

Take me out, show me the lights
Take me out tonight
Take me out, show me the lights
Take me out tonight
You're my key to the city
Key to the city
You're my key to the city
Key to the city

You're not afraid to let me run
Into the madness
Carry me well, the night is young
I'm feeling a magic

So before we see the sun is up
Hold me in a dream
What a moment for the both of us
Only you and me

Take me out, show me the lights
Take me out tonight
Take me out, show me the lights
Take me out tonight
You're my key to the city
Key to the city
You're my key to the city
Key to the city
