

Into The Light

Nicky Romero

Somewhere deep into the night
Reverse the clocks back in time

Into heavy fog rising up above the sea
Try to swim along, gotta try to make believe

On the horizon, colours fill the sky
Shining diamonds, a paradise you'll find

Into this paradise, paradise you'll find
Into this paradise, step into the light

Paradise you'll find
Step into the light

An ever glow of angels in the sky
Free-fall to a world beyond divine

Into heavy fog rising up above the sea
Try to swim along, gotta try to make believe

On the horizon, colours fill the sky
Shining diamonds, a paradise you'll find

Into this paradise, paradise you'll find
Into this paradise, step into the light

Paradise you'll find

Into this paradise, paradise you'll find
Into this paradise, step into the light
