

Love You For The Summer

Nicky Romero

I wanna love you for the summer
Wanna love you for the summer
Gonna love you like no other
Love you for the summer

I got a feeling that tonight's the night
You make me feel like I'm the one
We're gonna dance under a bright blue sky
Until we see the setting sun

Don't care about nobody in this room
I only got my eyes on you
You've got my heart as long as flowers bloom
And right now it's only June

I wanna love you for the summer
Wanna love you for the summer
Gonna love you like no other
Love you for the summer

Love you for the summer

Oh-ah-ah-oh-oh

Run through the lights until we lose ourselves
I feel the glitter on your skin
I feel the beat in every single cell
As your body's closing in

I wanna love you for the summer
Wanna love you for the summer
Gonna love you like no other
Love you for the summer
Love you for the summer

I wanna be all you've got
I wanna be your only lover
I wanna be all you've got
I wanna be your only lover
I wanna be all you've got
I wanna be your only lover
I wanna be all you've got

I wanna love you for the summer
Love you for the summer
Love you like no other
Love you for the summer

Oh-ah-ah-oh-oh

Love you for the summer
Love you for the summer
